

EDITORIAL FROM EDITOR-IN-CHIEF

International Science Congress Association is very happy to announce the release of its broad spectrum peer reviewed first ever Research Journal of Pharmaceutical Sciences circulated electronically globally. It will cover different areas of Pharmacy Pharmaceutics, Pharmaceutical Technology, Pharmaceutical analysis, Biopharmaceutics, Pharma kinetics, Pharmacology, Toxicology, Genomics and Proteomics, Phytochemistry and Cognosy.

Research Journal of Pharmaceutical Sciences would like to create platform for research scholars, academicians, Industrialists for the exchange of research finding and development of pharmaceutical sciences. International Science Congress Association would be glad to provide the opportunity to all the people related with the Pharmaceutical Sciences.

Pharmaceutical sciences are a group of interdisciplinary areas of study involved with design, action, delivery, disposition and use of drugs. As new discoveries advance and extend the pharmaceutical sciences subspecialties continue to be added to this list. As knowledge advances, boundaries between these specialties areas are beginning to blur. Many fundamental concepts are common to all pharmacy areas. These concepts are further helpful in understanding their applicability to all aspects of pharmaceutical research and drug therapy. With this hope International Science Congress Association is bringing forward this journal to all pharmacy fraternity and looking forward for a new relationship of knowledge exchange
