Dr. Pannuru Venkatesu

Dr. Pannuru Venkatesu was awarded **Ph D in 1995 at Sri Venkateswara University, Department of Chemistry, Tirupati, Andhra Pradesh, India**. His research is focused on the thermodynamics of protein folding/unfolding in the presence of ionic liquids, osmolytes and the behaviour of polymer chain or ionic liquid in coexisting liquid phases. **An author of 169 articles in scientific reputed journals and 60 presentations at the international conferences. In 2006, Fast Track Young Scientist was awarded by Department of Science and Technology (DST), New Delhi, India. In 2011, he received Dr. Arvind Kumar Memorial Award by Indian Council of Chemists, India and in 2013, he received Professor Suresh C. Ameta award by Indian Chemical Society, India. Very recently, he received Professor S. S. Katiyar Endowment Lecture award (2016-2017) from the Indian Science Congress Association, India. Bronze Medal – 2017 received from Chemical research Society of India (CRSI), Bangalore,**

Dr. Venkatesu is Member of the Editorial Board of the Journal of Molecular Liquids, Member of the Advisory Board of the Journal of Chemical Thermodynamics and Member of the Editorial Board of International Journal of Chemistry.

He was visiting Professor at Durban University of Technology, **Durban, South Africa**); National Taiwan University of Science and Technology, Taipei, Taiwan and **Plasma Bioscience** Research Center, Kwangwoon University, Seoul, South Korea.

Dr. Venkatesu is the first one to elucidate that ionic liquids are the best biocompatible co-solvents to prevent the disorder and overcome the stresses of the proteins. These results are highly useful tools for the cure of disorders due to misfolded or aggregated or denatured proteins in human bodies.

Dr. P. Venkatesu is a Fellow Contributor of International Science Community Association.

Ladies and gentle man, please welcome Dr. P. Venkatesu with a huge round of applause.

Fellow-FC-537
Dr. P. Venkatesu
